Men's Collars Laundered 2c Each

There's something of dignity to an upstanding, smartly starched collar that goes with good breeding, with success.

And you'll find it easy, a pleasure to wear starched collars, if you leave their laundering to us—you'll get them back smartly starched; all the rough edges smoothed down—the collar comfortable. More than that, you'll get double wear out of them.

Men's Collars 2 cents each.

Minimum Bundle 20c. Therefore one collar and up to ten collars cost you 20c. Each additional collar 2 cents.

WANTS TO BREAK ALTITUDE RECORD

J. A. MacReady, Holder of World's Record in Building Super Plane For Higher Flight

WILL SEEK THE LIMIT IN AIR

Former Record of 40,000 Feet is Expected to be Defeated With 55,000 Feet as Goal

By J. F. BEAMAN
(By United Press)

Dayton, Ohio, Feb. 16.—Lieutenant J. A. MacReady, holder of the world's altitude record, is preparing to fly to the ceiling of the world—the altitude at which he estimates his body will explode.

MacReady, unsatisfied with his recent flight record of 40,000 feet, revealed to the United Press today that he is building a super charger to carry him 55,000 feet into the air. Before he reaches this top of the world, his body will burst like a balloon because of the lack of pressure, MacReady believes.

"The importance of the revelations expected justify the experiment regardless of the consequences to myself," MacReady said.

When he explored the 40,000 foot level recently he found an air pressure of only three pounds per square inch. Fifteen thousand feet higher, he believes, may bring a collapse to the plane, a failure of the engine, an inefficiency in the super charger of an explosion of his body. The newly constructed craft will carry first three possibilities.

His body was puffy and the body tissues had begun to feel the strain of the altitude when MacReady made his record. He pushed the nose of his plane upward but its physical limit had been reached. Then he

Kidney, Liver, Bladder Troubles CONQUERED

BLADDER WEAKNESS AND PROSTATE GLAND IRRITATION

Clogged up Deposits Are Dissolved and Toxins (Poisons) Completely Driven Out. Druggists Authorized to guarantee Dr. Carey's Marsh-Root in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous prescription No. 777, known as Marsh-Root, is not recommended for everything, but we can not too strongly urge its use if you suffer from annoying kidney, liver and bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating, headache, rheumatism or any other tendency to Bright's Disease, Diabetes or Gravel for kidney disease in its worst form may be stealing upon you. Kidney, liver and bladder diseases are among the most prevalent disorders and are almost the last recognized by sufferers.

Don't wait until tomorrow to begin the use of this wonderful prescription, now obtainable in both liquid and tablet form, if you have any of the above symptoms. Kidney, liver and bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfeeling certainty. Never mind the failures of the past if you even suspect that you are subject to Kidney, Liver or Bladder disease; don't lose a single day; get Marsh-Root Prescription No. 777, at any reliable drug store. Its faithful use has benefited tens of thousands of men and women afflicted with Kidney, Liver, Bladder and all urinary troubles. Results guaranteed.

NOTE—Generous trial size bottle of Marsh-Root, tablet or liquid form, can be secured by sending 25¢ to Dr. Carey Co., Elmira, N. Y.

NEW ARBITERS NAMED

New York, Feb. 16.—Two new arbiters have been announced for the National League. Paul Senelle, former manager of Galveston and Charles Pfirman, who umpired in five minor leagues, will work with Klem, Emslie, Rigler, Quigley, McCormick, Moran and Hart. Breinan has gone back to the Southern Association.

MRS. HATFIELD SABINA, OHIO

In Pitiable Condition when she Began
Taking Lydia E. Pinkham's
Vegetable Compound

Sabina, Ohio.—I took Lydia E. Pinkham's Vegetable Compound for weakness and irregularity. I was weak and nervous and could hardly stand on my feet long enough to cook a meal. I was this way for about a year and had tried several medicines and had a physician, but to no avail. My sister was taking your medicine and finally induced me to try it. I now feel fine and can do my housework without any trouble at all. You can use this letter for the sake of others if you wish.—Mrs. WELDON G. HATFIELD, R. R. 3, Sabina, Ohio.

Housewives make a great mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties.

Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, headache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial. It surely helped Mrs. Hatfield, just as it has many, many other women.

THINK THIS OVER

Foolish people often throw away a suit when it becomes rusty and dingy. It costs money to replace it.

Wise people have the old suit cleaned, repaired and neatly pressed. It saves the price of a new one.

Neatness in personal appearance is a modern necessity, but economy is always better than extravagance.

Bring it to us for quick results.

OUTLINES BRIDGE WORK FOR 1922

State Highway Commission Announces That Bridges Will be Repaired or Built in 44 Counties

SEVERAL LARGE CONTRACTS

One 1800 Feet Long Will be Built Over White River at Hazelton, Is Largest Project

Indianapolis, Ind., Feb. 16.—Bridges will be built or repaired in forty-four counties of the state during 1922, the state highway commission announced today.

State aid work will be done on bridges in twenty-four counties: Allen, Dearborn, Delaware, Franklin, Grant, Knox, Henry, Jennings, Jefferson, Kosciusko, Lake, Marion, Ripley, Rush, Spencer, Sullivan, Switzerland, Vanderburg, Vermillion, Parke and Warren.

Counties where federal aid work will be done are: Clay, Clark, Dubois, Gibson, Jackson, Lake, Lawrence, Marshall, Putnam, Orange, St. Joseph, Scott, Spencer, Hamilton, Tipton, Vanderburg and Vigo.

There will be fifty-five state aid projects to be constructed at a cost of approximately \$370,000, Lawrence Lyons, state highway commissioner said. All these projects will be constructed at moderate cost, he said in order to have moderately good highways in all parts of the state and not have luxurious boulevards in spots at an excessive price. This policy was handed down by Governor Warren T. McCray.

The largest bridge in the state aid program will be a viaduct over the Big Four railroad tracks west of Covington on the Lebanon, Crawfordsville, Danville state road. It will be six spans in length, 600 feet long.

A bridge 1,800 feet long to be built over White River at Hazelton, connecting Knox, Gibson counties will be the largest in the federal aid projects. It will open a section for years dependent upon a ferry for an outlet.

As many of the bridges need floors, girders, piers and the like to be replaced much of the program will be maintenance, Lyons said. These can be put in condition to give many years of continuous service. The commission will endeavor, he said, to concentrate on extending the work into every section of the state where most needed to obtain the maximum amount of mileage in the state system.

NOTICE

Notice is hereby given to the taxpayers of Noble Township, Rush County, Indiana, that the Board of Commissioners, within and for said County and State, have determined to issue bonds to the amount of Thirty-three Thousand Four Hundred Forty Dollars (\$33,440.00) for the construction of the Harvey Smelser et al. Highway, in said Noble Township, Rush County, Indiana.

Witness my hand and seal this 7th day of February, 1922.

PHIL WILK, Auditor, Rush County, Indiana.

Titsworth & Titsworth, Attorneys for Petitioners. Feb-9-16

With Veterans Of The World War

Washington, Feb. 16.—Hundreds of men disabled in the service of their country during the World War are being put on their feet again and making great progress in gainful occupations through the aid of the United States Veterans Bureau.

Several outstanding cases are cited by the bureau, which has interviewed personally more than 148,000 disabled veterans.

Henry Bitter, of Dubuque, Iowa, totally blind and having artificial arms, has discovered a formula for a proprietary pharmaceutical preparation, which he has patented and is now making on a large scale. Prior to his enlistment Bitter was a pharmacist.

Dewey Cox, training in poultry at the United States Veterans' Bureau training center at Waynesville, N.C., has just sold the largest rooster ever seen south of the Mason-Dixon line for \$150.

Three men who have been rehabilitated as blacksmiths by the United States Veterans' Bureau are now receiving an average salary of \$204 a month.

A "Soldier without a country" has been discovered by the clean-up squad of the United States Veterans Bureau, operating at Grand Rapids, Mich. He is C. H. Pearl, who enlisted in the American Ambulance Service in the French Army in 1917. While Pearl was in the hospital as a result of a shrapnel wound, his organization was transferred to the United States Army, and he was overlooked. He was unable to show by official records that he served in the United States Army during the war, and he could not prove that he was actually in the service of any country when he was released from the French Hospital. The Bureau is working on his case.

The governmental agency dealing with veteran relief work, the United States Veterans' Bureau, is now manned almost entirely by ex-service men. This situation has been long contemplated by the government and has been advocated by all the veteran organizations.

The veterans have contended that

NOTICE OF BOND ISSUE

Notice is hereby given to the taxpayers of Noble Township, Rush County, Indiana, that the Board of Commissioners, within and for said County and State, have determined to issue bonds to the amount of Thirty-three Thousand Six Hundred Dollars, (\$33,600.00), for the construction of the W. A. Norris et al Highway, in said Noble Township, Rush County, Indiana.

Witness my hand and seal this 7th day of February, 1922.

PHIL WILK, Auditor, Rush County, Indiana.

Feb. 16 - 23 - Mar. - 2

HOW RESIDENT NOTICE

In the Rush Circuit Court, February Term, 1922, Complaint for Divorce, Eva M. Ragsdale vs. Everett Ragsdale, No. 2874.

Notice is hereby given the said defendant Everett E. Ragsdale that the plaintiff has filed her complaint herein which is a complaint for Divorce, together with an affidavit that the said defendant Everett E. Ragsdale is not a resident of the State of Indiana, and unless he be and appear on the 12th day of April, 1922, which is the 7th day of the said term of said court, at the Court House in the City of Rushville, Indiana, and State, the said cause will be heard and determined in his absence.

WITNESS, the Clerk and Seal of said Court, affixed at the City of Rushville this 15th day of February, A. D. 1922.
LOREN MARTIN, Clerk.
Gary & Bohannon, Plaintiff's Attorneys.
Feb. 16 - 23 - Mar. - 2 - 9

their problems would receive more sympathetic consideration by one who had been in the service. They felt that one who was familiar with the conditions existing during the war would be acquainted with the service procedure and therefore better able to render a fair decision in their case.

President Harding took this into consideration when he appointed an officer who had seen service overseas, Col. Charles R. Forbes, to be Director of the Veterans' Bureau. Col. Forbes in turn has made it a point to fill practically all the responsible positions with ex-service men. Regional officers are 100 per cent ex-service men.

The managers of the fourteen regional districts are without exception ex-service men. These men are in direct charge of the activities of the Veterans' Bureau relating to compensation, hospitalization and vocational training in their respective districts. The decentralization of the Veterans' Bureau has given these men added responsibilities.

The Sweet Bill provides for a number of sub-offices not to exceed 140. There are now 138 such sub-offices in existence. Eighty-six per cent of the sub-district managers are ex-service men.

A former sailor, characterized as having "one of the twenty-five most brilliant minds in the United States," is in training as an engineer in the University of Washington, in the unit of the United States Veterans' Bureau there for the training of disabled soldiers. His name is John Noland, and his brilliance has started the university authorities.

He made a perfect score of 212 points in the army alpha-intelligence

test in thirteen minutes. The best previous record was 207 points in 17 minutes, held by a Yale University professor, while an officer in the army. Noland also scored 100 per cent in the navy intelligence test. He passed perfectly in one minute and ten seconds an information test of 60 questions.

HAYS IN NEW ROLE

Chicago, February 16.—The Rev. George Dowsay, Third Presbyterian church, today proposed that Will Hays, new director general of the movies, organize a Sunday school class for film stars when he arrives at Hollywood.

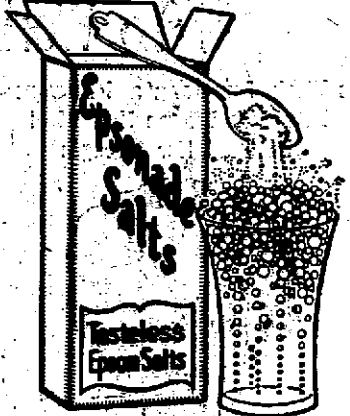

"Hays is an elder in the Presbyterian church," the Rev. Dowsay said. "Although there are 20,000,000 Sunday school members in the country there is still room for a class with Will Hays as teacher and the ten commandments as the text."

The minister said the parties at Hollywood reminded him of "the feast of Belshazzar."

Now Tells Women How Vinol
Restored Her Strength

MRS. HARVEY M. HARDISON

Farmington Falls, Me.—“I was in such a weak, run-down, nervous condition I did not have strength to do my housework, although I only have two in my family. I had tried different medicines without getting any better. My druggist asked me to try Vinol. I did so, and in less than a month I commenced to feel stronger. Vinol has built up my health so I can do my work without getting tired as I used to.”—Mrs. H. M. Hardison, Farmington Falls, Me.

In a natural manner Vinol creates a healthy appetite, aids digestion, makes rich, red blood, quickens the circulation and strengthens every organ, nerve and muscle of the body.

Your druggist will return your money if it fails to benefit you.

Mr. and Mrs. Alonzo Sheedy entertained at dinner Sunday, Mr. and Mrs. James Sheedy of Fairmount, Wallace and Lucy Inlow of Homer, Mrs. Esther Goddard and daughters, Glorine and Jenn.

ABUNDANT HARVEST OF ICE

Walls of Many Ice Houses in Northern Indiana Are Bulging

Kendallville, Ind., Feb. 16.—Walls of many ice houses in northern Indiana are bulging from the abundant harvest of ice reaped on the lakes this winter.

Countless lakes and rivers in the northern part of the state as at present are the source of a natural wealth which lies in the ice. During the season the harvest office is probably one of the greatest activities in this part of the state. Thousands of men receive employment and good wages. It is impossible to estimate how many millions of tons are cut up and stored in a season.

Columbus, Ohio.—“Home Sweet Home” murmured John Roach, 65, arrested on a charge of drunkenness. He has been in jail here one hundred and ten times.

START TUNNEL WORK
UNDER HUDSON RIVER

Project to Connect New York and Jersey City Under River to be Used For Vehicles

ESTIMATED AT \$28,000,000

(By United Press)

New York, Feb. 16.—Breaking ground for the two Hudson River tunnels connecting Jersey City and New York is expected to take place about March 4.

The land work from the Manhattan side, from West street to the pier heads has already been completed at a cost of \$650,000. The six points are the two pierheads of Jersey City and the landwork out of the pier heads.

The tunnel contract is estimated at \$22,000,000. The total cost will be more than \$28,000,000. The construction is to be of cast iron and concrete.

It is expected that the vehicular tunnel, on completion, will take care of 15,000,000 vehicles a year. The present traffic of vehicles across the Hudson is about 48,000 a day. By the time the tunnel is opened, it is estimated the traffic will have doubled.

The project to build the two tunnels began in July, 1919. Surveying of Canal street was completed in 1920, and the Manhattan section of the tunnels, out to the end of the piers, was finished recently.

ACTORS AND CHURCH
FOLK HAVE ARGUMENT

Go Several Fast Wordy Rounds on Whether Actors Are More Sinful Than Other People

DISAGREE ON A DECISION

New York, Feb. 16.—Church folks and stage folks disagreed today as to whether Dr. James Roach Stratton, famed anti-vice campaigner, held a verbal decision over William A. Brady, theatrical producer.

They went several fast wordy rounds in the pulpit of Dr. Stratton's church on the subject of whether actors are more sinful than other people. During the debate which was staged and advertised in advance, the church echoed with hisses, hoots, groans, yells and cheers from the opposing factions—but the minister's adherents made more noise than the theatrical people.

“There are more ministers in jail than stage people,” Brady cried as the discussion waxed hot and yells of “Throw him out” came from the congregation.

“More murders are committed by churchmen than by actors,” Brady charged.

Dr. Stratton said 17,000 words about stage wickedness, among those he named being Mary Pickford, Douglas Fairbanks and Charles Chaplin.

KILLED IN MEXICO

Washington, Feb. 16.—Charles Burrow, also known as Charles Miller, an American citizen, was shot and killed by two unidentified persons near Monterey, Mexico, on Feb. 1, the State Department was notified today. American Consul Bowman, in his report said he believed the slayers were Mexicans.

Pocahontas Coal

A FEW SUGGESTIONS ON HOW TO GET GOOD RESULTS WITH IT.

POCAHONTAS COAL burns more slowly in a furnace than most other coals. A few suggestions may help you get the best results in burning it.

1. The fire box should always be full. More heat is given off for the same amount of coal consumed.

2. In mild weather shake the ashes but little. A fire can be held down most successfully and with less coal consumed when there is a considerable amount of ashes under the fire. Even in the usual winter weather, it should not be necessary to shake the ashes more than several times a week. Good Pocahontas Coal practically all burns up, if given sufficient time.

3. After throwing in fresh coal, open the drafts and let the coal get well started to burning before closing them. Otherwise your fire may go out or explosions in the furnace occur. Fire the furnace at least an hour or two before retiring so that it can get a good start.

4. If you have a vent in the furnace door, open it at least part way. The combustion of the gases from the heated coal is better. These gases will then be burned and the heat value of them secured, when otherwise it might be lost.

If these simple rules are followed, you will find our Pocahontas Coal is a pleasure to burn, and an even and highly satisfactory heat assured.
